## Celebration of the 25<sup>th</sup> anniversary of cooperation between MPEI and HTWG

Dear Nikolay,

Thank you for the warm welcome during the celebration of our 25<sup>th</sup> anniversary at your University in Moscow.

The presentation of the current status of your institution and the historic view on the cooperation of two former exchange students from the very start was impressive to our students and to us. Furthermore, the technical presentations in the different laboratories stimulated the discussion between the students and the presenters. Please pass our thanks also to them.

We are now continuing our 25 years young partnership with mutual enthusiasm and empathy like it was when it started.

We are looking forward to welcome you in Konstanz.

Yours sincerely,

Ralf E.D. Seepold

Alexander Kirjuchin
