ABOUT THE CONFERENCE

General

V International Conference "Informatization of Engineering Education (Inforino 2020)" is devoted to the application of information technologies in engineering education, especially in engineering, scientific and technical calculations, the processing of experimental data, remote access to laboratory and production equipment, development of electronic resources and distance education in science and engineering disciplines.

The conference has been held by MPEI in Russia since 2012 and each time it attracts experts from Austria, Azerbaijan, Belarus, Czech Republic, Estonia, Germany, Great Britain, Kazakhstan, Kyrgyzstan, Latvia, Malta, Russia, Ukraine, USA etc.

Goal:

to exchange experience in the development and implementation of information technologies and resources in engineering education, as well as their application in the educational process.

Tasks:

to discuss the current problems in informatization of engineering education and highlight the main trends of its development.

Participants

Lecturers, technical specialists, post-graduate students of Russian and foreign universities, representatives of enterprises, leading developers in the field of information technologies, high-tech equipment, organization of their use in production, scientific research, educational process are invited to participate in the conference.

Topics & Sessions

The list of the topics and conference Sessions includes, but is not limited to:

1. Industry 4.0, cybersecurity and engineering education
2. Software and Information support and software for engineering education
3. IT in engineering calculations and design of industrial and energy facilities
4. IT in educational, research and testing laboratories
5. Distant technologies and electronic educational resources in engineering education
6. Computer graphics and 3D modeling in engineering education

VENUE

V International Conference "Informatization of Engineering Education (Inforino 2020)" will be held in Moscow, Russia, at the National Research University "Moscow Power Engineering Institute".

[14 Krasnokazarmannaja str., Moscow 111250 Russia](https://www.mpei.ru)

National Research University "Moscow Power Engineering Institute" is the leading power engineering institute in Russia with about 15,000 students from more than 60 countries.

Weather conditions for the event dates may vary from 0°C to +15°C. So you should check the weather forecast carefully just before your departure to Moscow in order to ensure that you have appropriate clothing. More detailed information about the University can be found at [MPEI website \(https://mpei.ru/lang/en/\)](https://mpei.ru/lang/en/).

More detailed information about the city can be found at [Wikipedia](https://en.wikipedia.org/wiki/Moscow).

PAPER SUBMISSION

- Upload service for papers submissions (both - initial and final) is the conference website available at <https://inforino.mpei.ru/submission>
- Papers should be **full 4 to 6 pages long** and should **meet the IEEE manuscript requirements**. Additional pages can be submitted for extra 20 USD per page.
- Working languages of the conference – English and Russian.
- Conference content will be submitted for inclusion into IEEE Xplore as well as other Abstracting and Indexing (A&I) databases.
