

Our planet's health is in our hands. To truly transform our economy, protect our security, and save our planet from the ravages of climate change, we need to ultimately make clean, renewable energy the profitable kind of energy.

A transition to clean energy is about making an investment in our future.

# Global Youth in ENERGY WORLD

## Summer Program 2024

**Vietnam**  
**August 3 - 12**

### Lectures on Energy World

Lectures delivered by top leading professors about common resources of energy, especially renewable and sustainable energy development. Explore some issues of energy in Viet Nam and compare to Russia.
